The Alabama Performance Excellence Program

The Alabama Performance Excellence (ALPEX) program is Alabama’s state level implementation of the Malcolm Baldrige National Quality Award program, promoting excellence in business, manufacturing, healthcare, education, government, non-profit and service sectors. ALPEX is a force multiplier for the State of Alabama. The ALPEX process leverages improvement across the state in government, education, healthcare and manufacturing, and sustain excellence for the state’s businesses and industries. Alabama’s neighboring states use state-level Baldrige programs in this manner. ALPEX has awarded over 50 Alabama organizations.
